

Eminify Service Sheet — Developer-Grade Product Teams

Full-stack pods shipping web, mobile, automation, and AI outcomes in weeks.

About Eminify

- **Headquarters:** United States & Nigeria (Lagos · Abuja)
 - **Engagement Modes:** End-to-end delivery · Embedded squads · Advisory
 - **Core Metrics:** 200+ launches · 98% satisfaction · 15+ countries served
- Eminify merges strategy, design, engineering, AI, and growth into one product squad. The result is developer-grade releases with dashboards, documentation, and observability wired in from day one.

Signature Services

Practice	Focus	Representative Deliverables
Web & App Engineering	Next.js systems, native and hybrid mobile	App Router applications · SaaS portals · React Native & Flutter apps
AI & Automation	Copilots, workflow engines, intelligence layers	Conversational assistants · Ops and finance automations · RAG pipelines
Enterprise Platforms	Secure, compliant platforms	CRM/ERP/LMS builds · API ecosystems · Cloud-native deployments
Branding & Product Experience	Design systems & storytelling	Identity systems · Figma/Storybook libraries · Campaign collateral
Marketing & Growth	Experimentation & lifecycle orchestration	SEO/content ops · Lifecycle flows · Analytics & attribution
Consulting & Enablement	Leadership & technical advisory	CTO-as-a-service · Architecture reviews · Enablement workshops

Engagement Framework

1. **Discover** — Align on KPIs, audit systems, and define roadmaps in a sprint.
2. **Design** — Translate strategy to UX, data contracts, and delivery plans.
3. **Build** — Ship in weekly drops with QA, automation, and telemetry in place.
4. **Scale** — Launch, train teams, and iterate with optimization playbooks.

Operating Principles

- **Blueprint to shipped** — Cross-functional pods own outcomes end-to-end.
- **Automation native** — Every release includes AI workflows, QA, and analytics hooks.
- **Always observable** — Dashboards, alerts, and process docs ensure smooth handoff.

Industry Coverage

- **Healthcare:** Patient portals, telemedicine, secure record flows.
- **Financial Services:** Digital onboarding, dispute resolution, compliance.
- **Education:** Learning platforms, analytics, campus operations.
- **Real Estate:** MLS sync, property automation, broker CRM tooling.
- **Retail & Commerce:** Omnichannel storefronts, inventory orchestration, personalization.
- **Manufacturing & AgriTech:** IoT dashboards, supply chain visibility, farmer marketplaces.

Technical Stack

- **Experience Layer:** Next.js App Router · React Server Components · Tailwind v4 · shadcn/ui.
 - **Platform Core:** Node.js · Python · Go · PlanetScale · Postgres · Supabase.
 - **Automation & AI:** LangChain · OpenAI · Temporal · Segment · Airflow.
 - **Infrastructure:** AWS · Azure · Vercel · Docker · Kubernetes · Terraform · Cloudflare.
-

Outcomes Snapshot

- **Koletmoni (Fintech):** Phrase-based payments + bill automation, 40% faster onboarding.
 - **InstantLearn (EdTech):** AI micro-learning platform shipped in 10 weeks.
 - **Afripact (Education Ops):** Incident reporting suite with role-based analytics across campuses.
 - **ReachOut World (Media):** Global content platform with automation-led publishing.
-

Working With Eminify

- Flexible engagement models — sprints, retainers, or dedicated squads.
- Transparent rituals — weekly demos, shared dashboards, async status reports.
- Compliance-ready delivery — SOC2-minded practices, accessibility, and performance budgets baked in.
